

## What makes ChromaSystem™ special

Not so long ago, refinishing seemed complicated and time consuming. Then DuPont made miracles happen.

DuPont Performance Coatings understands the dynamics of the refinishing business, and works hand-in-hand with clients. The perfect blend of years of tradition in excellence and constant technological innovation made ChromaSystem™ possible, bringing together an agile and efficient process, and impeccable results. ChromaSystem™ offers versatile solutions, especially tailored to meet the most demanding standards, "impossible" deadlines and the highest expectations.

### Complete Solution

Whatever your repair orders demand, the versatile ChromaSystem™ has it covered - with faster - drying undercoats, productive 2K topcoats, and the world's fastest bakeable and air-dry clears. Check out our unbeatable solutions for all refinishing stages.

### Undercoats with ValueShade® by DuPont

Our patented ValueShade® technology makes topcoats hide faster, in fewer coats. A choice of sealers and primer-fillers gives you more ways to get the results and the workflow you want.

### Multileg topcoat capability

Increase your topcoat options from just one versatile MasterTint Mixing Machine. Choose ChromaPremier® basecoat or single-stage for premier-appearance jobs. Or easy-to-use ChromaBase® and ChromaOne® for ultra-productive workflow with customer-satisfying results.

### Unbeatable clearcoats

The world's fastest and most flexible clears, whether you bake or air-dry. It's up to you. Air-dry bakeable clears on one day, and express-dry an air-dry clear in 10 minutes on the other. Whatever you need, ChromaSystem™ gives you more choices.

# DuPont™ ChromaSystem™

**ChromaSystem™ offers you not only the most competitive products in refinishing, but also guarantees you can use them in the best and most efficient way, giving you access to a world of DuPont Automotive Finishes resources.**

# DuPont™ ChromaSystem™

So Good. So Fast. So Versatile

Refinish

# Only ChromaSystem™ gives you what you need and want.

Is it top quality appearance, to amaze and retain your customers?

Do you need good and fast results to rev up your business?

Or do you just want to make life simpler with easy solutions?

**With ChromaSystem™, you don't have to switch brands if you have different needs.**

**In fact, you don't even have to give up quality for speed or ease of use.**

## Good. Fast. Versatile.

**Check out our three proprietary DuPont™ ChromaSystem™ product lines and see for yourself.**

### ChromaPremier®

The ChromaPremier® line adds premier appearance to the productive power of ChromaSystem™ and delivers amazing results second to none in the market. Our catalyzed urethane technology and baking clears deliver premier appearance.

This is the right choice for demanding customers, who want not only fast delivery but who also need to be delighted!

#### Surface Prep

#### DuPont™ ChromaPremier® 22860S™ Etch Primer

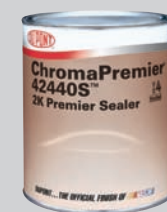

Two component, self-etching primer that provides unsurpassed corrosion resistance and adhesion over bare steel, galvanized and aluminum. An OEM approved acid etch primer that makes top-quality direct-to-metal repair work more productive.

#### Undercoats

#### DuPont™ ChromaPremier® 32430S™ 2K Premier Primer

High Build, easy to sand primer for premium quality spot, panel and overall repairs. It provides excellent fill and holdout in a wide range of application conditions.

#### DuPont™ ChromaPremier® 42440S™ / 42470S™ 2K Premier Sealer

High performance sealer for premium quality spot, panel and overall repairs. It provides excellent leveling and topcoat holdout. This sealer uses DuPont™ ValueShade® technology to promote faster topcoat hiding in fewer coats with better color matches.

#### Topcoats

#### DuPont™ ChromaPremier® Basecoat

High performance, fast-drying, activated basecoat that brings a new level of productivity to premium spot, panel and overall repairs. It delivers superior appearance laying down smoothly, with trouble-free application and excellent mottle control.

#### DuPont™ ChromaPremier® Single Stage

High performance urethane with outstanding appearance. A high build, high gloss, Premium Single Stage that combines productivity and user-friendliness with toughness and durability.

#### Clears

#### DuPont™ ChromaPremier® 72500S™ Premium Appearance Clear

High solids urethane clear for premium quality spot, panel and overall repairs. It provides outstanding application latitude and delivers unsurpassed appearance.

### Ultra Productive

The UltraProductive line gives you everything you need to ensure fast throughput, same-day delivery and happy customers. Its tools will make your business successful. We help you keep it that way not only through the fastest topcoats and clears you can find, but also reducing fixed costs like labor and energy.

#### Dupont™ Variprime® 615S™/625S™ Self-Etching Primer

Fast drying, self-etching primer. It provides excellent corrosion resistance and direct-to-metal adhesion for spot, panel and overall repairs.

#### DuPont™ 4904S™ 2K UltraProductive Primer-Filler

Highly productive primer for spot and panel repairs. It dries to sand in 1 hour and delivers quality topcoat holdout from a low overspray, easy to sand fill primer.

#### DuPont™ 4910S™/4940S™/4970S™ 2K UltraProductive Primer-Sealer

High performance undercoat designed to provide excellent flow and leveling for spot, panel and overall repairs. It exhibits exceptional topcoat holdout and minimum overspray during application. This sealer uses DuPont™ ValueShade® technology to faster topcoat hiding in fewer coats with better color matches.

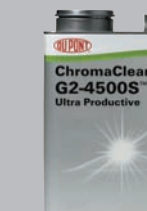

#### DuPont™ ChromaBase®

Easy to use, fast drying basecoat with good fill for spot, panel and overall repairs. It provides high quality and high productivity.

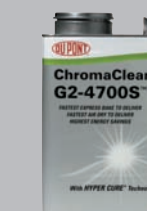

#### DuPont™ ChromaOne®

Productive single-stage acrylic urethane designed for spot, panel and overall repairs. It delivers good gloss and DOI, goes on easily and dries quickly.

#### DuPont™ G2-4500S™ High Bake and Air Dry

Is designed to increase production by maximizing vehicle throughput and allowing for immediate vehicle delivery. It boosts throughput and saves energy with the fastest or shortest force-dry process. This is the clear of choice for shops that need maximum throughput with excellent appearance.

#### DuPont™ G2-4700S™ Air Dry and Express Bake

It is the world's fastest air dry or express bake clear that delivers revolutionary energy savings and productivity.

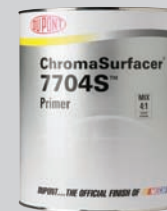

### ChromaBase® "4 to 1"

The DuPont™ ChromaBase® "4 to 1" refinish system is a customizable system that saves time and money. ChromaBase® "4 to 1" is a simple to use and maintain system with a common 4 to 1 mix ratio for primer, sealers and clearcoats that share a common set of activators. And it is the only system with Multi-Mix™ clearcoats that can meet any Refinisher's unique requirements.

#### Dupont™ Variprime® 615S™/625S™ Self-Etching Primer

Fast drying, self-etching primer. It provides excellent corrosion resistance and direct-to-metal adhesion for spot, panel and overall repairs.

#### DuPont™ ChromaSurfacer™ 7704S™ Urethane Primer-Filler

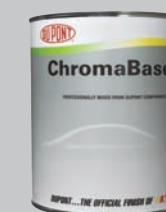

ChromaSurfacer™ 7704S™ provides a solid foundation for high quality repairs. It can be counted on to provide consistent reliable performance under a variety of shop conditions.

#### DuPont™ ChromaSeal® 7710S™ / 7740S™ / 7770S™ 2K Urethane ValueShade® Sealer

ChromaSeal® 7710S™ / 7740S™ / 7770S™ can be counted on to provide consistent quality and performance for spot, panel or overall collision repairs under a variety of shop conditions. Fast flash and time to topcoat mean higher booth throughput and maximum profitability.

These four undercoats share activators with ChromaClear® 7779S™ and HC-7776S™ Multi-Mix Clears.

#### DuPont™ ChromaBase®

Easy to use, fast drying basecoat with good fill for spot, panel and overall repairs. It provides high quality and high productivity.

#### DuPont™ ChromaOne®

Productive single-stage acrylic urethane designed for spot, panel and overall repairs. It delivers good gloss and DOI, goes on easily and dries quickly.

#### DuPont™ ChromaClear® G2-7779S™ Multi-Mix™ Panel and Overall Clearcoat

ChromaClear® G2-7779S™ is an easy to use, exceedingly versatile and user-friendly clearcoat that consistently delivers a durable, deep rich gloss. Shares activator with ChromaSurfacer™ 7704S™, ChromaSeal® 7710S™/ 7740S™/ 7770S™ and ChromaClear® HC-7776S™.

#### DuPont™ ChromaClear® HC-7776S™ Multi-Mix™ Snap Dry Clearcoat

ChromaClear® HC-7776S™ is an exceedingly fast drying air dry clearcoat with a deep through cure and good gloss. It dramatically increases shop throughput and delivers energy savings day in and day out. Shares activator with ChromaSurfacer™ 7704S™, ChromaSeal® 7710S™/ 7740S™/ 7770S™ and ChromaClear® 7779S™.
